Volunteer children's and young people's (CYP) mentoring role description:

Children and young people's project of The Mentor Ring supports children and young people with psychological and behavioural issues. There is a demand to mentor children and we are inundated with referrals from the community and various other organizations especially due to COVID 19-Lockdown.

Volunteering with The Mentor Ring as a participant in our projects means changing a life. It means you will volunteer your time to one at risk. You will establish and uphold a continuing relationship with your mentee, including weekly e-meetings with parents and e-participation with the Volunteer training programme at The Mentor Ring.

The overarching goal is to show that with proper guidance, it is possible for disadvantaged young people to take the next step toward a better future.

The time commitment is as little as 1 hour a week.
